## DETAILED ACTION

### *Information Disclosure Statement*

1. The information disclosure statement (IDS) submitted on 7/11/03 has been considered by the examiner.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1, 3, 4, 15, 16, 19, and 20 are rejected under 35 U.S.C. 102(e) as being anticipated by Gierveld et al. (US 6,113,111 A).

With respect to claims 1, 15, 16, 19 and 20, Gierveld et al. discloses a connecting mechanism for pivotally connecting a shoe 2 to a sporting device (or ice skate) 6 comprising a support element 3 with first and second ends, a connecting element 5 on the sporting device, first and second pivots E,F, and a coupling element (not numbered) having a first end connected to the front end of the support element at the first pivot and a second connected to the connecting element at the second pivot allowing the support element to pivot with respect to the connecting element, as shown in figures 33A and 33B.

Art Unit: 3618

With respect to claims 3 and 4, the first pivot is below the ball of a user's foot and the second is at the front of the foot, as shown in figures 33A,B.

### ***Allowable Subject Matter***

4. Claims 17 and 18 are allowed.
5. Claims 2 and 5-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Storandt, Jungkind, Tessaro, Belogour, Chang, Girard, Meester et al., Edauw et al., Simmonetti et al., Haughlin, and Krah disclose pivoting sport device connections of interest.
